

Information Session on Graduate Studies in Environmental Sciences

Tues, Nov 10 at 5pm

Lash Miller Room 108

Open to any interested students

This will be an informal session where I discuss opportunities for graduate work in Canada, the USA, and Europe and address questions such as:

- 1) What kind of scientific disciplines study the environment?
- 2) How do I find a good university, department and supervisor?
- 3) What kind of grades do I need for graduate work?
- 4) Do I have to take any additional tests?
- 5) Will I get paid and how?

with Professor Jennifer Murphy
